

## General Boost

Interns needed for The Token Post. The biggest blockchain information website in Israel.

Here's what we are looking for:

**5 Undergrad or Grad Students who can write in English to come to our offices twice a week (we are flexible on the schedule) for the duration of two months.**

**Each student will write articles for our website surrounded by Israel's top experts on the subject and receive full credit for their piece. This internship will not be paid. Students will be able to:**

- a) put questions and learn from the ICO creators, and market movers we have working alongside us.**
- b) publish a portfolio of analysis that will be read by the cryptocurrency community in one of the most prestigious publications on the subject of cryptocurrencies.**
- b ) use previously written articles.**
- c) have full access to our kitchen.**

**The Token Post is a market analysis website produced by a company that is also a market mover so interns will be writing about the sea surrounded by real life sharks.**
